DATA FOR A FAIRER TOMORROW

ERASMUS+
Cooperation Partnerships
in Higher Education

CALL 2026

Integrating ESG competences in higher education for a more **sustainable** and **inclusive** future

Bridging education, data and real-world challenges
to empower a new generation of responsible leaders.

Naples
ITALY

THE PROJECT

genESG aims to modernize higher education by embedding **Environmental, Social and Governance (ESG)** principles into curricula, teaching practices and student engagement, empowering a new generation of responsible leaders capable of addressing global sustainability challenges.

ESG PILLARS

ENVIRONMENT

Climate action,
resource management
and biodiversity

SOCIAL

Inclusion, equal
opportunities
and social impact

GOVERNANCE

Transparency, ethics
and responsible
decision-making

Responsibility runs across all three pillars: sustainable practices and societal engagement

WORK PACKAGES

WP1

Project
management
and coordination

WP2

Student
engagement
and competition

WP3

Capacity building
and teaching
innovation

WP4

Curriculum
analysis
and development

WP5

Dissemination,
exploitation
and sustainability
